ASSEMBLY COMMITTEE ON HUMAN SERVICES
JIM BEALL, JR., CHAIR

2011 LEGISLATIVE BILL SUMMARY

HIGHLIGHTS

The Assembly Committee on Human Services has jurisdiction over programs and services designed to assist the state's most vulnerable populations – children who have been abused or neglected, people with disabilities, low-income families, and the elderly. In 2011, the first year of the two-year session, 57 bills were referred to the Committee, 38 were passed by the Legislature, and 15 became law. Following are some of the highlights:

The Committee devoted much attention to the problems and concerns of the nearly 80,000 children in the care and custody of the state's foster care system as a result of abuse or neglect. 13 child welfare/foster care bills were referred to the Committee. Three bills were enacted into law: **AB 212 (Beall)**, which was a follow-up to last session's AB 12 (Beall & Bass), which phases in an extension for foster care to eligible youth up to age 21, and enables the state to receive federal assistance to fund its Kinship Guardian Assistance Program (Kin-GAP); and, **AB 709 (Brownley)**, which clarifies that children in foster care who change schools have the right to be enrolled in school immediately, even if immunization and other medical records are not available at the time of enrollment. **AB 989 (Mitchell)** requires counties to include programs that consider the needs of transition age foster youth in their three-year plans for funding from the Mental Health Services Act (MHSA). A number of foster care bills referred to the Committee are two-year bills that can be heard by the Committee in January 2012. Five foster care bills passed by the Committee were held on the Suspense File in either the Assembly or Senate Appropriations Committee, and one bill was vetoed by the Governor.

The Committee also heard and approved significant human services bills affecting seniors and people with disabilities. Two bills, which were signed by the Governor, addressed recently enacted IHSS fraud and program integrity measures: **AB 876 (Valadao)** narrows the circumstances under which an IHSS provider can sign a waiver on a recipient's behalf, allowing the recipient to hire a provider with a criminal record. **SB 930 (Evans)** repeals the requirement that each timesheet submitted by an IHSS provider include fingerprints of the provider and the recipient, and the prohibition against providers using P.O. boxes to receive their paychecks.

Two bills, signed by the Governor, require notice to be provided to residents of Residential Care Facilities for the Elderly under specified circumstances in which the residents' continued placement may be in jeopardy: **AB 313 (Monning)** and **SB 897 (Leno)**. Two separate bills

would establish the Home Care Services Act of 2011, requiring the licensing of agencies providing non-medical home care services: **AB 899 (Yamada)** was held on Suspense in the Assembly Appropriations Committee. **SB 411 (Price)** is a 2-year bill.

In the area of developmental disabilities, **SB 368 (Liu)** authorizes juvenile courts to appoint an individual to make decisions with respect regional center and other developmental services when parental decision-making authority has been limited. **AB 254 (Beall)**, a 2-year bill, would implement recommendations of the Employment First Committee of the State Council on Developmental Disabilities, which was established pursuant to AB 287 (Beall 2009). Another significant bill, currently in the Senate—**AB 1244 (Chesbro)**—establishes a Self-Determination Program, providing individual funding allocations to eligible people with developmental disabilities to give them greater control over the purchase of services and supports.

Child care issues were also of central concern to the Committee. Along with the Office of the Speaker of the Assembly, the Chair played a key role in securing funding to restore Child Care Stage 3 after the funding was eliminated in the budget. The Committee heard **SB 737 (Walters)**, a bill that would have clarified statutes relating to license-exempt "organized camps."

The Committee also addressed CalWORKs welfare-to-work and CalFresh anti-hunger issues. The Committee heard and approved **AB 1182 (Hernandez)** to remove the vehicle eligibility test for CalWORKs and allow CalWORKs recipients to build assets to limits permitted by federal law, and **AB 959 (Jones)**, which provides a one-month extension to participants in CalWORKs for filing required reports in order to avoid re-application. The Committee heard and did not approve **AB 373 (Garrick)** to reduce the number of months, from 48 to 24, that a CalWORKs recipient can remain on the program, and **AB 949 (Gorell)** a bill that would have doubled fines for specified fraud convictions by CalWORKs recipients and deposit half the fine monies into the county general fund and the other half into the county district attorney's office or county Special Investigative Unit.

Along with statutorily updating the name of the program from the Food Stamp program to CalFresh via **AB 1400 (Human Services)**, two bills approved by the Committee were designed to significantly reduce barriers to receiving CalFresh: **AB 6 (Fuentes)** accomplished three things—eliminating the finger-image requirement for CalFresh applicants, converting CalFresh from a quarterly to semi-annual reporting system, and creating a "Heat and Eat" program jointly with the Department of Social Services and the Department of Community Services and Development. **AB 69 (Beall)** uses already existing data within the Social Security Administration's database to identify eligible seniors and also streamlines their enrollment in the program. This bill could potentially enroll up to 440,000 seniors with an average benefit of \$80 per month. Two bills approved by the Committee also expanded food stamp eligibility: **AB 828 (Swanson)** to allow individuals convicted of drug-related felonies and pursuing drug treatment to receive food stamps, and **SB 43 (Liu)** which made the CalFresh Employment and Training (CFET) program more equitable by removing the mandatory requirements when the state or a sub-region is federally determined to have high unemployment.

A complete summary of bills referred to the Human Services Committee in 2011 follows.
